We Make it Easy

From utilizing resources to understanding payment options, we make it easy to pay your way.

Long Term Care Insurance

We do all the heavy lifting! From note submission to itemized invoices sent, we work with any long term care company to ensure you're getting the appropriate care you've already paid for (via your insurance premiums) and that you get reimbursed promptly. We always send required items by the 5th of the month to ensure you're not delayed in reimbursement.

Veteran Benefits

There are two commonly used VA Benefits options that we accept; Aid and Attendance and Home and Community Based Program. Ask us how.

Credit Card

Automatically pulls from the credit card of your choice, every two weeks. This option does have a 3% convenience fee. Our state-of-the-art accounting system ensures all information remains confidential and our experienced accounting team are the only ones that even have access to your account information after signing up. We can also split invoices, making it easy for multiple family members or loved ones to be involved with financial support.

Automatic Bank Transactions

Automatically pulls from the bank account of your choice, every two weeks. Our state-of-the-art accounting system ensures all information remains confidential and our experienced accounting team are the only ones that even have access to your account information after signing up. We can also split invoices, making it easy for multiple family members or loved ones to be involved with financial support.

Personal Loan Options

WSFS offers a low interest personal loan option – For easy discussion and review of this option, we'll put you in touch with a local loan officer that can answer your questions and get things rolling quickly. This could be most beneficial for a more short-term situation or for the deposit of services if you don't have access to the cash necessary.

Reverse Mortgage/Home Equity Conversion Mortgage (HECM)

If you plan to stay in your home, a reverse mortgage option allows you to leverage the home you have to stay there! We suggest reviewing the National Council on Aging's booklet "Use your home to stay at home" as a great resource. Increased regulation has made this more feasible and beneficial for homeowners. Reverse mortgages are not for everyone, and do have origination fees, but can be invaluable to you if you're cash strapped or don't have the retirement income you need/were planning on. There is no mortgage payment once you commit to the HECM. Basically, a reverse mortgage is like selling your home (to the bank of your choice) but getting to still live in it without paying rent.

Medical Insurance

We do accept some insurance contracts and can always assist you in finding a company if you need a specific type of care that is covered by insurance. We do not accept Medicare, nor does Medicare currently cover the scope of our services.
